

“  
It's an incredible feeling to be able to reach out and help people on the other side of the world in what is quite possibly the worst moment of their lives. That's why I support ShelterBox.

## Disaster relief

## WHO WE ARE

ShelterBox is made up of people who believe in shelter as a human right. Our work keeps families and communities together during a time of unprecedented global conflict and displacement.

“  
We test and evaluate all of the aid that we provide by learning from the families who use it, fuelling us to be innovative and constantly evolving.”

### OUR MISSION

When people are plunged into crisis, normality is suspended. But good, quality shelter can cut through the chaos. This is why we provide aid to families devastated by disaster, to give them safe shelter and the tools to rebuild their homes, their communities and their lives.

### OUR PLEDGE

We are impatient to see a world where no family is left without shelter. This drives us to transform the support of our donors, fundraisers and volunteers into the hope and power of families all over the world.

### WHAT WE DO

We provide emergency shelter and tools for families robbed of their homes by conflict and natural disaster. We don't believe that one size fits all, so we work hard to understand the impact of each emergency. The equipment we provide, whatever shape it takes, enables people to transform their own lives.

### OUR PROJECT PARTNER

We are proud to be project partners with Rotary International. Rotarians across the world support us in a variety of ways, from raising awareness to providing support on the ground during our response to a disaster. By working together, we can maximise our impact and reach more communities in desperate need of shelter.

## YOUR IMPACT

ShelterBox provided Popeye with a ShelterKit and other essential items like solar lights, to help him get back on his feet after his home was badly damaged following flooding and mudslides. “The water came in from both sides and we were surrounded - it filled the house. We watched as the water took everything I had away.”

“  
I really like the lights, as I don't have regular electricity. I was able to build a shelter to live in, it took me six days to build, but I built it myself.”

*Popeye from Trujillo, Peru*

## GOING THAT EXTRA MILE

### DISASTER STRIKES

We immediately contact our partners on the ground to establish the scale of the disaster and how we can help.

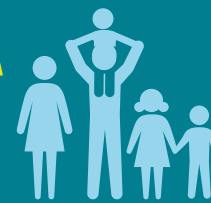

### A CUSTOMISED SOLUTION

The aid we provide comes in the form of ShelterBoxes and ShelterKits, which are customised based on our assessments of what would help families most.

### DELIVERY

We go to the ends of the earth to deliver the essentials people need to begin rebuilding their lives in the aftermath of disaster.

### COMMUNITY RECOVERY

We don't just give people what they need to survive, we give them the tools to self-recover - to keep families and communities together.
