READY TO RESPOND

For ShelterBox, prepositioning is a crucial part of our supply chain. This is the term we use for storing aid items in strategic locations around the world. Your support will help us to prepare and re-stock.

Pre-positioning and local procurement helps to make the supply chain more efficient and makes it quicker and cheaper to move aid to where it is needed when responding to a disaster.

In-country office also doubles as an aid warehouse allowing us to respond quickly and efficiently.
